

The No More Cold Calling® Referral-Selling Webinar Program

Sales Challenges

Salespeople agree that referral selling is “hands down” their most crucial business-development strategy and enables them to get the meeting at the level that counts. With referrals:

- The prospect is pre-sold on the salesperson’s ability to deliver results
- Sales time shortens by at least 20%
- The referred salesperson has credibility
- The competition decreases or disappears
- Salespeople attract a new client a minimum of 50 percent—but more likely between 70 and 90%—of the time
- Referred clients are more profitable, deal sizes are larger, and these clients are perfect sources of referrals to new business

Yet, 95% of salespeople do not have a written referral-selling strategy, written weekly referral goals, referral-selling skills, or a system to track and measure referrals. At No More Cold Calling, we close that gap and make referrals not only common sense, but common practice.

Curriculum

The No More Cold Calling Webinars are facilitated by Joanne Black, the founder of No More Cold Calling. Monthly group mentoring calls and referral activities are included to ensure results.
